About Us

Testimonial

"Eluminous Technologies have been instrumental in helping us develop software solutions for our clients. Eluminous are great communicators, efficient and easy to work with. They complete all tasks correctly and on time."

Ben,
CEO, Digital Agency London

"It has been a pleasure working with Sukhada Deo in the last three months. Her ideas and responsiveness with customer requests have definitely exceeded our expectations. We truly appreciate her high level of technical skills. She continuously provides us with helpful advice on web design and infrastructure for some of our critical clients."

Eli,
CTO, Tech Startup LA

"It was really, really a pleasure to have Mukesh, online and virtually alongside me offering us his guidance, and applying changes to the website needs as and when changes were needed to be made by the client "on the fly", given everything his else that he has to deal with."

Christian,
Internet Marketer, Johannesburg

"Just a quick message to say Thanks for all the hard work you have done so far. Really enjoying working with you and clients are really happy too with your level of design skill, and great communication skills too. Hoping for a long prosperous business relationship."

Patrick,
Founder, Tech Startup Sweden
